Feature Editors

The EDELIAN staff members spent many hours in work and worry — often on their own time — to bring you this record of your school year. Working under the uncertainties of an interrupted school year, it was their responsibility to help finance, plan and prepare the yearbook. Thank you for your efforts on behalf of the students and staff.

A special note of thanks is due to a group who worked diligently for the yearbook — the Senior Photography Class in the Libbey Skill Center.

SPORTS AT LIBBEY HIGH!

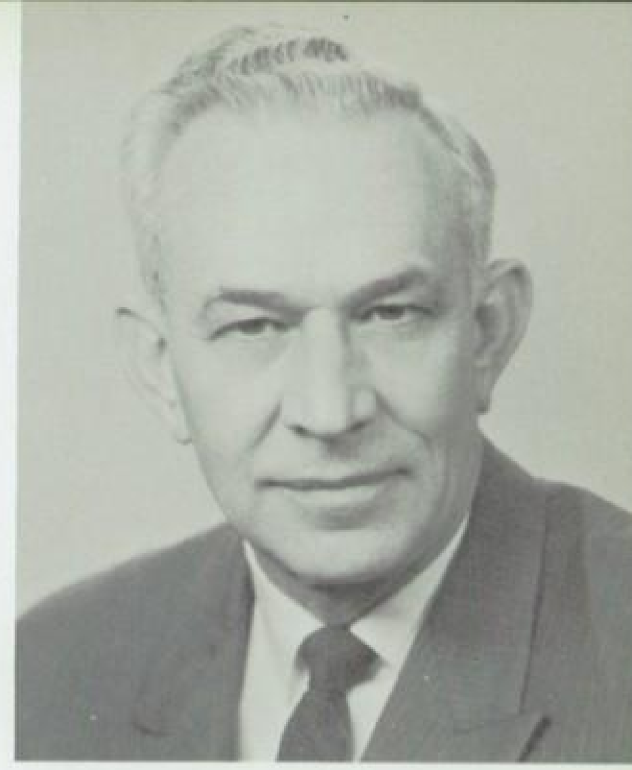

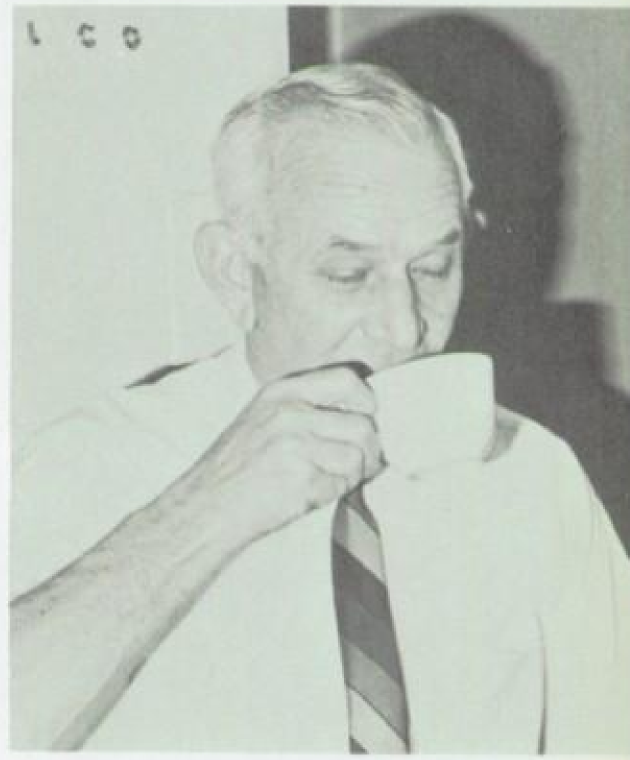

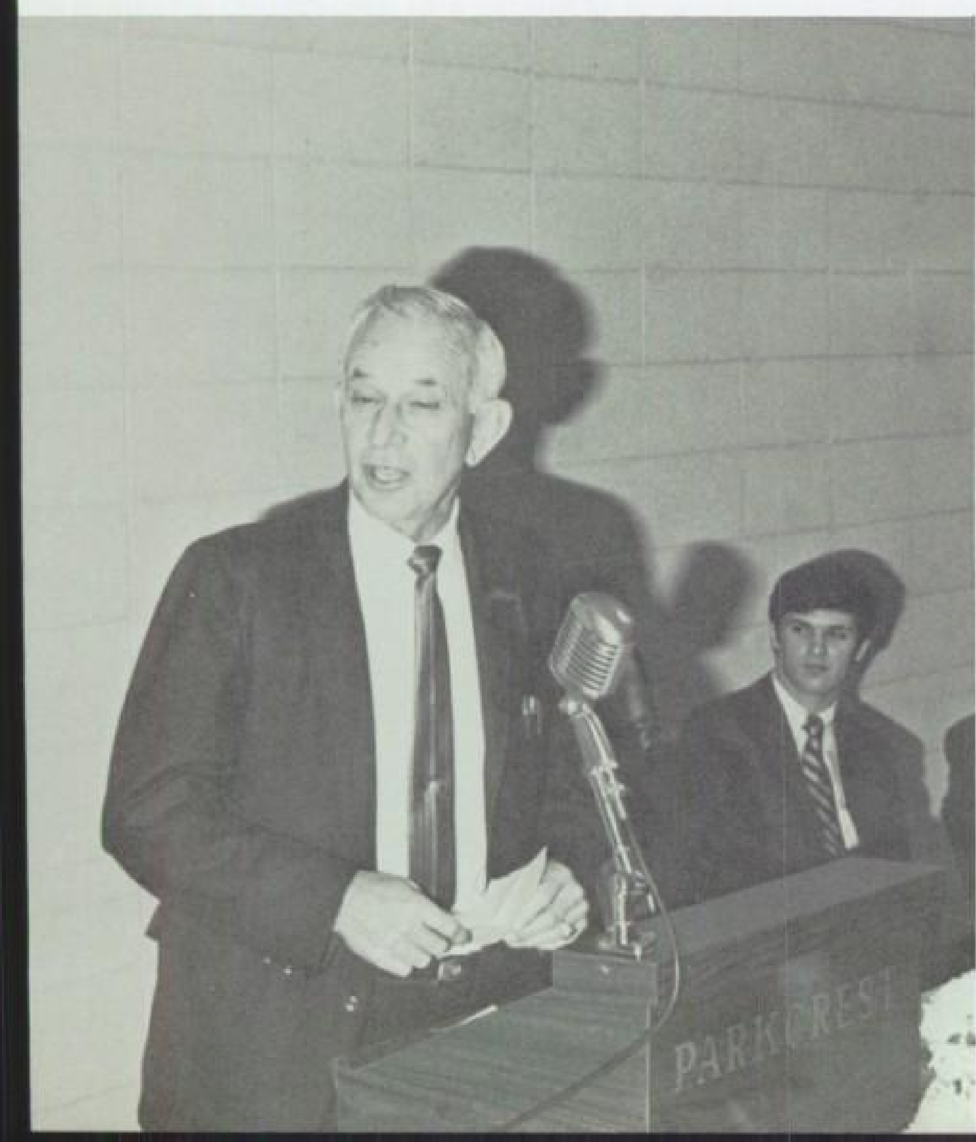

LIBBEY COWBOYS' STADIUM DEDICATION

CHARLES ROBINSON is a name that will live on through the history of Libbey High School. Early in the season the football stadium was dedicated in his memory and named the "Charles Robinson Memorial Stadium."

Robbie remained a friend of Libbey even after his retirement. He taught at Libbey for 34 years and was a 9 letter man for the Cowboys during his school days here. He came back to Libbey in 1938 to teach and to coach. He coached football, basketball, track and cross country, later becoming Athletic Director before retiring in 1971.

The dedication of the stadium is an expression of gratefulness for all that he gave to so many.

Looking toward the future...

As supplies of natural gas and oil continue to grow scarce, electricity will play an even larger role in meeting the expanding energy needs of our society. That's why Toledo Edison is developing new sources of energy, such as nuclear power, and planning ahead for the power needs of 1990 and beyond.

We're determined to meet this challenge and provide the best possible electric service for your generation and others that follow.

The Andersons

We make many things, in many places, but our home is still Toledo.

If you still think of Libbey-Owens-Ford as "the glass people," you're only partially correct.

Today, LOF and its subsidiaries operate plants throughout the world. But our corporate headquarters—and many of our manufacturing facilities—remain where we began: in Ohio.

LOF products . . . from LOF people.

Break tradition your way

Judy Newall did.
She's a coin collector working outdoors collecting coin boxes from pay phones.

Jerry Perkowski did.
He's a clerk-typist who enjoys office work.

Rita Chuey did.
Now she's an installer who works outdoors and on her own.

Give tradition a break, as well as yourself.

Have we got a future for you!

You've graduated . . . but now what? A job? Or more education — and **then** a job?

Think about this . . . Fiberglas is the new basic material, used in over 30,000 products from sports equipment to tires to draperies. And Owens-Corning is the world's leading maker of Fiberglas materials. There could be a great future for you — growing with us. Think Fiberglas, think Owens-Corning.

Owens-Corning is Fiberglas
